

## **Purchasing the *FET-Pro430* flash programming software.**

The *FET-Pro430* software has a 30 days trial period. To activate a trial option simply press the “OK” button instead “Enter Key” button when the *FET-Pro430* software is started. After the trial period, the *FET-Pro430* software will refuse to work until the valid activation key is entered. To get a valid activation key you should install the *FET-Pro430* on the computer you would like *FET-Pro430* to work on and send to us the “*hardware fingerprint*” from your PC. To get the “*hardware fingerprint*” simply click on the “*enter key*” after you start the *FET-Pro430* software. The 8 digits hex number “*hardware fingerprints*” will be displayed.

If you wish to place an order for the *FET-Pro430* flash programming software, please email ([sales@elprotronic.com](mailto:sales@elprotronic.com)) or fax ( + 905-780-2414 ) to us following information:

1. Company name and address.
2. A valid contact e-mail address for electronic delivery of activation key and invoice.
3. Purchase order or Credit Card information (VISA/MasterCard, cardholder name, card number, expire date).
4. **Two “*Hardware fingerprint*”** numbers taken from the *FET-Pro430* software installed on **two** desired PC (main and spare PC).

*Note: Only one software can be used at the time.*

**Note:** After the activation key is entered the *FET-Pro430* flash programming software becomes active on the specified computer. Because the software cannot be disabled, the *FET-Pro430* sale is final when the activation key is sent. If you wish to take an extended evaluation period - free of charge - let us know. We can send you a temporary key. The “*hardware fingerprint*” number is required to get an extended evaluation period.
